IN REPLY REFER TO:

To Whom it may concern;

In the summer of 2010 TRG Equipment Services was awarded a BLM construction contract for the installation of approximately one mile of water pipeline plus the associated infrastructure such as valves and settling box. With only a 14 foot drop in one mile of length the tolerances were very small on this project but the Gregory's expertise with the excavation, laser levels and pipe installation made this project run smoothly, efficiently and on schedule.

Tom made recommendations during this project that we implemented and led to a better final product. Tom and Stephenie provided excellent communication with BLM so that we always knew exactly what was going on. When a modification was required they both worked very hard to give the government and the tax payer a very fair, non-inflated price that just covered their extra costs.

I highly recommend TRG Equipment Services and Tom and Stephenie Gregory for any excavation, pipeline, road or any other dirt-moving project or contract.

If you wish to contact me for questions or verification please feel free to do so. I can be reached at (530)224-2159 or email at [k15willi@blm.gov](mailto:k15willi@blm.gov).

Sincerely,

Kelly Williams  
Natural Area Manager
